

Sizes-we can print about any size you would like to have on Canvas. Traditional paper prints are limited by the size of matt board--40 x 60 inches. (Expert framers can mat larger pieces than we can.) 40 x 60 matt board can enclose approximately a 35 x 55 print (two and a half inches of matt on each side of the print.)

On Canvas the largest practical small dimension is 40" using 44" canvas. We can get stretcher bars of about any length, but 120" is a practical limit. New Mexico's primary source of art materials carries regular heavy-duty stretcher bars up to 84", but they can be had up to 120" by special order. Or, we can make bars for special situations.
